“they help us get the job done! My department’s staff knows the ins and outs of the university much better than I do, and they’re much more effective than I would be with many tasks.”

“we make Lehigh the great school that it is. We are linked to each other not only by our loyalty and affection for Lehigh, but by our mutual respect and dependence on each other. Each of our jobs depends on another person’s enthusiasm and willingness to help. If you cut out one department on campus it would be like a link cut out of a chain. Together, we form a strong and continuous bond all around campus. Without staff, there would be a lot of floundering about by faculty on campus.”

“they are the ones that have the first contact with students/parents. Staff represents the Lehigh brand so it’s important for the staff to feel valued. In turn the staff will show their commitment in everything they do at work.

“they strengthen the retention rates of our students by helping to create a ‘home-away-from-home’, experiences that aid in their professional and personal development, and foster wellness amongst our community.”

“they are the human infrastructure of the University. They help people get from point A to point B and have a direct effect on the quality of that trip. Like civil infrastructures such as roads and bridges they can provide the trip from hell by providing detours, bumps, and confusing signs. Alternatively, they can provide a pleasant journey by being available, welcoming, and helping people navigate the sometimes complicated procedures and rules you will encounter at Lehigh. The latter being what staff should always provide to the people they support.”

Submitted by, Doris Oravec – Financial Manager, ATSSS Engineering Research Center

“they are excellent at what they do, they have a wealth of knowledge and skills, and their smiles and friendly attitudes make Lehigh a great place to be!
