      ii. Having trouble getting numbers. Payroll has stated they are unable to run a report on how many vacation and/or floating holidays were taken with the current system. It’s something they would need to do manually and currently don’t have the time to do this kind of request.
      iii. Request was made for all ERAC members to try and get this information on their respective departments/stems. Robin will send out an email to full group after the meeting today with details on what is needed.
      iv. Liz M-C reached out to Facilities, to date no response. Yesterday, the Executive Committee met with Career Development regarding the Staff Development Day Event and found out that Lori Kennedy’s husband works for the Bucks County School District and has gone through a major cost savings study. Lori offered his services if needed. Lori also commented that the younger workforce is looking for that work/life balance, time off when day cares are closed due to weather conditions. Time off during certain periods are a great marketing tool for the University.
      v. Registration and Academic Services Department was closed
      vi. If a department decides to close completely, this needs to be communicated to the full campus community.

b. Staff Development Day – Wednesday, May 23rd, 2018
   i. Executive Committee met with Career & Professional Development, Lori Kennedy and Karen Kuczynski. They are both very excited to present for staff.
Two specific topics were narrowed down: 1) How to build your personal brand and 2) Story Telling

They do have a Resume Workshop available; however, this does require more time and man power. Something to think about for next year.
